SIPE'S JAPAN OIL.

For all kinds of Painting Staining and Graining is far superior to Linseed Oil and costs less. Will wear longer and have a better finish than work done with Linseed Oil and cheap Dryers.

In respect to the many things which go to make life pleasant the city's equipment is similar to that of other commercial centers. Of schools and churches it has an adequate quota and special progress has been made in the educational line. Washington and Jefferson College, the oldest college west of the Alleghenies, is located here, also Washington Female Seminary, Trinity Hall Military School and two business colleges. There is a street railway system, 3 miles in length, and another line just completed to Cannonsburg, 9 miles distant. The borough has 11 miles of paved streets, sanitary sewage, electric light, natural gas, water works, fire department, a court house, completed in 1899 at a cost of $934,000, and is the center of a county that is rich in agriculture, oil and gas productions and coal. The financial institutions consist of three trust companies, two national and a private bank. The principal manufactories are the Tyler Tube & Pipe Co, Jessop Steel Co, McClure Tin Plate Mill, Griffith's Charcoal Iron Tin Mill, Hazel-Atlas Glass Co, Duncan Glass Co, Highland Glass Co, Pittsburg Window Glass Co, Washington Carbon Works, Petroleum Iron Works, Beaver Refining Co, Findlay Clay Pot Works and three breweries, besides numerous other smaller manufactories. The press is represented by the Observer, issued daily and semi-weekly, the Reporter, issued daily, and the Democrat and Journal, both weeklies. Tel., W U. Exp., U S and Adams.
